MEDICAL FOOD

For the dietary management of phenylketonuria (PKU). Dispensed by prescription. Glytactin BUILD 10 is a medical food for PKU patients, ages one year and older. Each packet contains 10 grams of Glytactin protein, now with only 10 mg Phe per serving, the optimal blend of glycomacropeptide (GMP) and amino acids, designed to enhance the protein content of a low Phenylalanine (Phe) diet. A neutral tasting versatile powder to be taken alone or incorporated into beverages and low protein foods. Can be a 10 gram low-Phe Glytactin protein booster for any PKU formula. Designed with a complete profile of vitamins and minerals plus DHA. Contains probiotics to support digestive health.

PRECAUTIONS

Give only to adults and children who are under medical supervision for proven PKU. Protein in prescribed amounts must be supplemented to completely meet phenylalanine requirements. Not for parenteral use.

DIRECTIONS FOR USE

Add to 6-12 oz (180-360 mL) of beverage or formula, or add to food. Mix well. If adding to water, use 8 oz of water for best flavor experience.

Store in a cool, dry place.
